The Prince George's Hispanic Republican Club offers its full support for United States Park Police Chief Teresa Chambers. In so doing, we call on President Bush to immediately intercede in this matter and return Chief Chambers to full active duty.

Chief Chambers gained the trust of many of the members of the Hispanic community while she served as Commander of the Hyattsville District Station in Prince George's County. She worked to reduce crime in the area, while being sensitive to the needs of our community. She has always conducted herself with honesty and integrity, and we fear that it is her openness and honesty that has created her current predicament.

After September 11, 2001, President Bush established a clear doctrine in regards to the war on terror, "either you're with us, or against us." However, she recognizes that her Park Police force needs more resources to assist President Bush in his call for action.

It is our sincerest hope that President Bush will recognize the asset that he has in Chief Chambers and restore her to full duty immediately. We are confident that together they can protect our homeland from radical terrorists and win the war against terror.
